## Locally sourced: Tulsi

In late September, Creature Comforts Brewing Company will release Tulsi, a saison featuring tulsi and hibiscus from its tasting room. This beer came about from Creature Comforts' partnership with the **UGarden**. The brewery quickly started to learn more about adaptogens and tulsi in particular after visiting the farm and working with the UGarden team.

After brewing the beer and allowing it to mature, the brewery added hibiscus, also sourced from the UGarden. The floral qualities of hibiscus are a perfect complement to the earthy and herbal saison, giving the beer a nice balanced presentation.

Tulsi will be available on draft and to-go in 750mL bottles from Creature Comforts' tasting room on Saturday, September 28.

## Exploring the depths of strong ale: Concurrency Blend 3

Concurrency is a changing expression of stout, time, and spirits barrels. Through blending and the introduction of various ingredients, Creature Comforts explores the
