

Your guide to Volunteering at garden

Register

Find an event on **Engage Georgia**, UGA's volunteering and experiential learning platform. The link is always in our bio.

Arrive

Arrive **promptly** at the time of your event. Park for free outside the upper barn or in the parking lot just down the hill.

Meet your volunteer group under **the upper barn**: that big metal building right when you pull in.

Event Types

Harvest Help

You'll be in the field **picking ripe fruits and veggies** from our plots! You may also help wash and weigh the produce.

General Farm Help

This event is different every time. You'll assist with **whatever needs to happen on the farm**, like planting, weeding, working in the greenhouse, and so much more.

Event Types

Herb Help

You'll support our medicinal herb garden by **working in the field or in the herb room**. You'll either be tending to the plots or processing dry plants into our teas and spice blends!

Demo Garden Help

You'll help us set up our **School Garden Demonstration Area** - a new program supporting local educators. Expect outside work in our raised bed garden!

Come prepared

We've got all the tools and equipment you need. Your job is to **dress appropriately** for working outside.

Check the weather before you leave and make sure to bring...

- Sunscreen
- Raincoat
- Light layers
- Water bottle
- Sturdy, close-toed shoes

What if it rains?

UGarden events are **rain or shine!** There's indoor herb and greenhouse work to be done when the weather isn't working with us.

Events may be cancelled in cases of **extreme weather**. Just keep an eye on your email – you'll be notified if the event is off.

More questions?

Contact us if you have any questions or concerns before your event. We also love to hear feedback about your experience!

See you at the farm!
